## Because Success Doesn't Happen By Chance

As a way of encouraging and motivating students with academic promise to take advantage of the opportunities provided in high school and beyond, the Clarkston Education Foundation (CEF) awards "promise scholarships" to two eighth grade students. These scholarships will be available upon their graduation from high school for use in the next step of their education - either at a college, vocational or technical school. This year's 8th grade students to receive the 2008 Eighth Grade Promise Scholarship are Taylor Danner and Desaray Myles.

**WHAT WE ARE**

The Clarkston Education Foundation (CEF) is an independent organization with no legal, financial, or administrative affiliation with the Clarkston School District. The CEF does however maintain a close working partnership with the school district administration and staff. It is an exciting example of teamwork between the community and the school district, and we appreciate the generous support of the Clarkston School District employees and staff.

**WHO WE ARE**

Founded in 2002, the CEF is under the organized direction of a passionate Board of Directors comprised of education and business leaders, parents, alumni, and private citizens. We all recognize a community responsibility to help promote education awareness and the need for private funds to support our schools and students.

**MISSION:** The purpose of the Clarkston Education Foundation is to promote and enhance education in Clarkston schools.

The CEF sponsors an annual Career Fair at Lincoln Middle School where students can learn about over 100 jobs and careers and watch demonstrations like this one at the Avista booth. For more information or to register your business for the January 2009 Career Fair, please visit our website.

Clarkston High School science students can now perform experiments using handheld Vernier LabQuest Interface units. This equipment was purchased with funds donated to the CEF through the Setlow Science Grant and Potlatch Corporation. These units will improve the student's involvement with science experiments and stimulate their interest in data collection and modern technology.

**SCHOLARSHIPS and GRANTS**

One of the most rewarding and beneficial contributions the CEF makes to Clarkston education is in the form of scholarships and grants. This is also where financial gifts to CEF are most needed and applied. Our goal is to be able to increase the amount of these awards progressively to impact the highest number of students possible on an annual basis. Please visit our website for more information and to meet some of our success stories!

**BECAUSE SUCCESS DOESN'T HAPPEN BY CHANCE . . .**

The Clarkston Education Foundation relies on private funds for support in it's mission to promote and enhance education. We are asking for your financial support to help strengthen the quality of education in Clarkston schools and give our 2500+ students the best chance possible for a successful future.

Your contribution will also help strengthen our community. Quality education leads to the establishment of a prepared workforce - ready to be employed in challenging and satisfying jobs. It also produces citizens with strength of character and outstanding leadership as well as individuals with the commitment to create a better community.

The education of our young citizens is a community responsibility. Your gift will strengthen the partnership between the community and it's schools. Join in the success of our students by investing in the ideas of our teachers and dreams of our young scholars.

**. . . WE NEED TO MAKE IT HAPPEN.**
